PART 1010—SUSPENSION ORDERS

[Suspension Order S-456]

ALVAH I. MATTHEWS

Alvah I. Matthews is engaged in business at Ortonville, Minnesota, as a dealer in farm machinery, stoves, bottle gas equipment and cold locker storage. Subsequent to April 8, 1942 he violated Limitation Order L-86 by installing sixteen items of liquefied petroleum gas equipment for uses not approved by the War Production Board. Mr. Matthews was familiar with Limitation Order L-86, and these violations must be deemed wilful.

The foregoing conduct has hampered and impeded the war effort of the United States by diverting scarce equipment to uses unauthorized by the War Production Board. In view of the foregoing; *it is hereby ordered, That:*

§ 1010.456 *Suspension Order No. S-456.* (a) Alvah I. Matthews, his successors or assigns, shall not purchase, accept or make delivery of, sell, transfer, lease, or otherwise deal in liquefied petroleum gas equipment, as defined in Limitation Order L-86, except as hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Alvah I. Matthews, his successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on December 29, 1943, and shall expire March 29, 1944.

Issued this 22d day of December 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-470]

HARRY PAPADOPOULOS

Harry Papadopoulos, of Carrabelle, Florida, on or about March 20, 1943, began construction of a building on premises formerly occupied by the Westbury Building in Carrabelle, Florida, at an estimated cost of about \$12,000, without obtaining authorization from the War Production Board. His intention was to erect a building for use as a theater and bar at said location. This construction was in violation of Conservation Order L-41, which prescribed a limit of \$200 on such construction. Harry Papadopoulos was aware that War Production Board approval must be obtained, for he caused a Form PD-200 to be completed but it was never approved, and he otherwise knew of War Production Board regulations and his failure to take the necessary steps to insure compliance with Conservation Order L-41 must be considered a wilful violation.

This wilful violation of Conservation Order L-41 has diverted scarce material to uses not authorized by the War Production Board. In view of the foregoing; *it is hereby ordered, That:*

§ 1010.470 *Suspension Order No. S-470.* (a) Neither Harry Papadopoulos, his successors or assigns, nor any other person shall order, purchase, accept delivery of, or withdraw from inventory, or in any manner secure or use material or construction plant in order to continue or complete construction, as defined in Conservation Order L-41, on the building on premises formerly occupied by the Westbury Building in Carrabelle, Florida, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Harry Papadopoulos, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on December 29, 1943.

(b) *Reports*. Unless specifically authorized to the contrary by the War Production Board, each person selling more than 1,000 lbs. of cobalt in any month shall report his sales during the month on Form WPB-3452. This reporting requirement has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(d) *Violations*. Any person who willfully violates any provisions of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or accepting further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

PART 3133—PRINTING AND PUBLISHING

[Limitation Order L-244, as Amended Dec. 30, 1943]

MAGAZINES

Section 3133.15 Limitation Order L-244 is hereby amended to read as follows:

§ 3133.15 Limitation Order L-244—

(a) *The purpose of this order*. This order does two things: First, it limits the tonnage of print paper which a magazine publisher may use or cause to be used in printing his magazine or magazines. This is called his "consumption quota" and is based upon the tonnage of print paper which was used in printing his magazine or magazines in 1942. Second, it limits the tonnage of print paper which may be delivered to or accepted by or on behalf of a magazine publisher, based upon the tonnage of the various grades and items which he has in inventory.

Definitions and Explanations

(b) *Magazine*. A "magazine" is any periodical generally recognized as a magazine in the magazine industry, regardless of the frequency of issuance. The term includes all supplements, inserts and other printed matter physically incorporated into a magazine. It also includes reprints containing 50 percent or more of the editorial content appearing in any issue of a magazine.

(c) *Publisher*. A "publisher" is a person who publishes one or more magazines. The term includes an individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not. Where a group of magazines is under common control, but each magazine is published by a separate business entity, a separate consumption quota and a separate delivery quota shall be established for each magazine. It makes no difference if several of these operating entities are subsidiaries of the same parent corporation, or are controlled by the same individual or group of individuals.

(d) *Print paper*. "Print paper" means any grade, quality, type, basis weight or size of paper used in the printing of a magazine. The term includes paper reclaimed wholly or partly from printed or unprinted waste as well as paper made entirely from virgin fiber.

(e) *Use*. Print paper is "used" when ink is first applied to it. The date of issuance carried on the magazine is immaterial. When the printing of an issue is started in one calendar quarter and runs over into the next, the paper actually used during each quarter must be charged against the publisher's consumption quota for that quarter. The entire printing may not be regarded as if it were started and finished in the same quarter. All production waste shall be included in determining the tonnage of print paper "used" in printing a magazine.

(f) *Inventory*. "Inventory" means all the print paper which is available for a publisher's use. It does not include paper in transit. It is immaterial whether the paper is in the publisher's hands or in the hands of a printer, paper dealer or other person.

(g) *Transfer of quotas*. (1) No publisher may use in printing his magazine or magazines any part of a consumption quota arising from the previous publication of another magazine by another publisher. No publisher may permit any part of the consumption quota arising from the publication of a magazine or magazines by him to be used in printing another magazine published by another person.

(2) Quotas provided by one War Production Board order may not be used for the purposes set forth in any other order. Thus, for example, a publisher may not use for the printing of a magazine any part of a consumption quota established under Order L-240 (news-papers), L-241 (commercial printing), or L-245 (books), and he may not permit any part of his consumption quota established under this order to be used for newspapers, commercial printing or books.

(3) The rules governing the assignability of quotas are set forth in Priorities Regulation 7A.

(h) *New publishers*. Any person who did not publish a magazine in 1942 has no quota for the use of paper in printing magazines.

Consumption Quota

(i) *Computation of consumption quota*. In the first calendar quarter of 1944, and in each calendar quarter after that, no publisher may use or cause to be used, for the printing of his magazine or magazines, print paper in excess of his quarterly consumption quota, which shall be computed as follows:

(1) Determine the gross tonnage of print paper consumed in printing the publisher's magazine or magazines in 1942, and divide by four. This is the publisher's "quarterly base" from which the required reductions shall be made.

(2) If the publisher's quarterly base is not more than five tons, his quarterly consumption quota is the same as his quarterly base.

(3) If the publisher's quarterly base is more than five tons but not more than 27.8 tons, his quarterly consumption quota is 90 percent of his quarterly base or five tons, whichever amount is larger.

(4) If the publisher's quarterly base is more than 27.8 tons, his quarterly consumption quota is 75 percent of his quarterly base or 25 tons, whichever amount is larger.

(5) In every case, a publisher's quarterly consumption quota is subject to adjustment as provided in paragraph (j).

(j) *Adjustments*—(1) *Borrowing*. A publisher may add an extra 15 percent to his consumption quota in any quarter if he subtracts that amount from his consumption quota for the next quarter.

(2) *Savings*. If a publisher uses less than his quota in any quarter, he may add the saving to his consumption quota in a subsequent quarter, or distribute the saving over several subsequent quarters.

(k) *Total permitted consumption*. A publisher may use in any quarter:

(1) His quarterly consumption quota, as determined under paragraph (i).

(2) Plus permitted borrowing from his consumption quota for the next quarter, as provided in paragraph (j) (1).

(3) Plus any less-than-quota savings carried over from previous quarters as provided in paragraph (j) (2), or minus any tonnage which had been borrowed during the preceding quarter from his consumption quota for that quarter, as provided in paragraph (j) (1).

(l) *Allotment to Army Service Forces and to the Navy*. (1) The War Production Board may from time to time allot to the Army Service Forces and to the Navy a specified tonnage of paper to be consumed in printing special "pony" editions of magazines which will be furnished without charge to United States Armed Forces personnel overseas.

(2) From this allotment the Army Service Forces and the Navy, under a delegation of authority from the War Production Board, may grant to individual publishers the right to add to their consumption quotas the tonnage of paper consumed in such special "pony" editions purchased by the Army Service Forces and by the Navy. This allotment does not cover purchases of magazines by military exchanges or service departments as defined in Priorities Regulation 17. No magazines sold to the military are ex-quota unless the publisher has received a specific grant from the Army Service Forces or the Navy pursuant to this paragraph.

(m) *Certification to printer*. No publisher may order magazines to be printed unless he furnishes, or has previously furnished, to the printer a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the printer and to the War Production Board that he is familiar with Order L-244 of the War Production Board and that all printing ordered by him of items regulated by that order,

as amended from time to time, will be in compliance therewith.

This is a one-time certification and need not accompany each individual order for printing.

Delivery Restrictions

(n) *Limit on tonnage which may be accepted*. (1) No publisher may accept, and no other person may accept for a publisher's use, delivery of any grade of paper if the publisher's inventory of that grade exceeds a two-months' supply, based on his average rate of use during the last six months of 1943, or if acceptance of the delivery will bring his inventory above this level.

(2) If a publisher's total inventory of any grade exceeds a two-months' supply, but his inventory of a particular item is less than one-month's supply, he may bring his inventory of that item up to a two months' supply.

(3) Deliveries limited by the foregoing to a fraction of one carload may be increased to a full carload.

(4) Grades of paper include, but are not limited to the following: Newsprint, Novel-News, Rotogravure, Kraft or Wrapping, Cover paper (all kinds), and the following grades of Book paper; Antique, English finish, Machine finish, Supercalendared, Bulking, Offset, and Coated (Machine- or Brush-).

(o) *Certification to paper dealer or mill*. No publisher may order paper unless he furnishes, or has previously furnished, to the paper dealer or mill, a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that he is familiar with Order L-244 of the War Production Board and that all purchases by him of items regulated by that order, as amended from time to time, will be in compliance herewith.

This is a one-time certification and need not accompany each individual order.

PART 3133—PRINTING AND PUBLISHING

[Limitation Order L-245, as Amended
Dec. 30, 1943]

BOOKS

Section 3133.17 *Limitation Order L-245* is hereby amended to read as follows:

§ 3133.17 *Limitation Order L-245*—

(a) *The purpose of this order*. This order does two things: First, it limits the tonnage of paper which a book publisher may put into process or cause to be put into process in the production of books. This is called his "consumption quota," and is based upon the tonnage of paper which he caused to be put into process in the production of books in 1942. Second, it limits the tonnage of paper which may be delivered to or accepted by or on behalf of a book publisher, based upon the tonnage which he has in inventory.

Definitions and Explanations

(b) *Book*. "Book" means any collection of printed pages (including advance parts, supplements, and juveniles) bound by any method or in loose-leaf form. However, the term does not include:

(1) Publications issued at periodic intervals of less than 6 months;

(2) Diaries, date books, memorandum books, address books, blank books, accounting books, sales books, business-entry books, ledgers, journals, and other items in book format (except school workbooks) whose primary function is to provide space for the entry of data rather than instructional material, reading matter or illustrations;

(3) Albums less than half of whose pages contain reading matter or illustrations;

(4) Catalogues or advertising brochures issued by a person who manufactures, distributes, or offers for sale the products, commodities or services listed or illustrated therein;

(5) Directories issued by a person whose primary business is not publishing;

(6) Paper-bound pamphlets or booklets of less than 64 pages (except bound music folios) issued by a person whose primary business is not publishing;

(7) School or college annuals and yearbooks.

(c) *Publisher.* The "publisher" of a book is the person who performs, with respect to that book, the functions of a publisher as that term is generally understood in the book publishing industry. In determining the identity of the person who is the publisher of a book the following factors shall be taken into account as a guide, although no one factor or combination of factors shall necessarily be controlling:

- (1) Selecting the manuscript;
- (2) Acquiring the publishing rights;
- (3) Editing the manuscript;
- (4) Causing the type to be set;
- (5) Ordering, purchasing, or leasing the plates;
- (6) Designing the format;
- (7) Arranging for the purchase of paper or other raw materials;
- (8) Printing and binding the book, or arranging with a printer and binder to do so;
- (9) Promoting and advertising the book;

(10) Using an imprint identifying that person as the publisher on the title page, spine and jacket of the book;

(11) Introducing the book into the channels of distribution with or without a monetary consideration, either in connection with a correspondence course, in part consideration of society membership dues, as a premium, or otherwise;

(12) Paying royalties to the author;

(13) Generally undertaking the ultimate risk of the venture as entrepreneur.

(d) *Transfer of quotas.* (1) Interpretation No. I, issued on March 20, 1943, provided: "As between publishers . . . Order L-245 does not prohibit Publisher A from purchasing books from Publisher B where such books bear the imprint of Publisher B and where the paper for such books is deducted by Publisher B from his quota."

This interpretation was issued in order to make it clear that Order L-245 does not prohibit the established practice in the book publishing industry whereby one publisher occasionally undertakes the sale and distribution of an edition or part of an edition of books published by another person.

The interpretation did not sanction the acquisition by one publisher of another publisher's consumption quota. It was contemplated that Publisher B, in the example given in the interpretation, was the actual publisher of the books in question, not a mere dummy whose quota and imprint were being used by Publisher A for Publisher A's

purposes. Quotas established by this order may not be bought and sold under any guise. The transfer of quotas is prohibited, except under the circumstances set forth in Priorities Regulation 7a. The use by one publisher, directly or indirectly, of a consumption quota provided for another publisher is a violation, punishable in accordance with paragraph (v).

Except where specific authorization is granted by the War Production Board upon application in writing, paper which is put into process in the production of a book may be charged only against the quota of the person:

(i) Who performs with respect to that book the functions of the publisher as set forth in paragraph (c); and

(ii) Who owns the copyright or the publication rights under copyright by assignment from the copyright owner; and

(iii) Whose publishing imprint appears on the title page, spine and jacket of the book to the exclusion of any other imprint or colophon of any kind.

(2) Quotas provided by one War Production Board order may not be used for the purposes set forth in any other order. Thus, for example, a publisher may not use for the production of books any part of a consumption quota established under Order L-240 (newspapers), L-241 (commercial printing) or L-244 (magazines) and he may not permit any part of his consumption quota established under Order L-245 to be used for newspapers, commercial printing or magazines.

(e) *Put into process.* All the paper consumed in a single, complete, continuous printing of a book is "put into process" when the press run is commenced. Paper "put into process" includes paper printed by the letter press, offset or any other process.

(f) *Production waste.* All production waste shall be included in computing the tonnage of paper which a publisher causes to be put into process.

(g) *Paper.* "Paper" means any grade, quality, type, basis weight or size of paper which is used in the production of a book, including end papers, labels, paper covers and jackets. It also includes paper reclaimed wholly or partly from printed or unprinted waste, as well as paper made entirely from virgin fiber.

(h) *Basis weight.* "Basis weight" means the weight of 500 sheets of paper 25 x 38 inches in size.

(i) *Inventory.* "Inventory" means all the paper which is available for a publisher's use. Paper in transit is not included. It is immaterial whether the paper is in the publisher's hands or in the hands of a printer, paper dealer or other person. When paper is put into process or otherwise consumed in the production of a book it ceases to be in inventory.

(j) *New publishers.* Any person who did not cause paper to be put into process for the production of books in 1942 has no quota for the publication of books.

(k) *Breach of contracts.* As provided in Title III of the Second War Powers Act, no person shall be held liable for damages or penalties for any default

under any contract which shall result directly or indirectly from compliance with this order.

Consumption Quota

(1) *Computation of consumption quota.* In the calendar year 1944, and in each calendar year after that, no publisher may put into process or cause to be put into process paper for the production of books in excess of his consumption quota, which shall be computed as follows:

(1) Determine the gross tonnage of paper which the publisher caused to be consumed in the production of books in the calendar year 1942. This is the publisher's "base tonnage" from which the required reductions shall be made.

(2) If the publisher's base tonnage is 20 tons or less his consumption quota is the same as his base tonnage. He need not use less than he used in 1942 but he may not use more.

(3) If the publisher's base tonnage is more than 20 tons but not more than 100 tons his consumption quota is 20 tons plus 85% of his base tonnage in excess of 20 tons.

(4) If the publisher's base tonnage is more than 100 tons his consumption quota is 75% of his total base tonnage, or 88 tons, whichever is larger.

(m) *Adjustments—(1) Carry-over of 1943 savings.* A publisher who placed a bona fide print order for the production of one of more books in 1943 and who, because of production delays beyond his control at the printing level, found that the paper could not be put into process before December 31st, 1943, may add this tonnage to his 1944 consumption quota, provided he filed with the War Production Board on or before December 31, 1943 a letter setting forth the weight of paper to be added to his 1944 quota, the name of the printer with whom the order was placed, and the date of such order.

(2) *Carry-over of 1944 savings.* If a publisher uses less paper than he is allowed in 1944 he may add that amount to his consumption quota for 1945.

(n) *Restriction on paper for reprinting.* In addition to the limitation established by paragraph (1) above, there is a further limitation on the weight of paper which may be used per copy in certain reprintings, as follows:

(1) No publisher may cause to be put into process in the reprinting of any book issued prior to January 8, 1943 more than 90%, by weight per copy, of the paper used in the last printing of that book issued by him or another publisher prior to January 8, 1943.

(2) Excepted from the provisions of subparagraph (n) (1), but not from the provisions of paragraph (1), is the reprinting of books:

(i) On paper which was ordered prior to January 8, 1943 and was delivered to, or for the account of, the publisher within 45 days after January 8, 1943.

(ii) The last printing of which prior to January 8, 1943 was on paper of 45 pound basis weight or lighter if such printing was by letter press, or on paper of 50 pound basis weight or lighter if such printing was by offset, *Provided*, The reprinting is on a paper of 45 pound basis

weight or lighter if the reprinting is by letter press or 50 pound basis weight or lighter if the reprinting is by offset.

(c) *Allotment to Army Service Forces and to the Navy.* (1) The War Production Board may from time to time allot to the Army Service Forces and to the Navy a specified tonnage of paper to be consumed in printing books which will be furnished without charge to United States Armed Forces personnel.

(2) From this allotment the Army Service Forces and the Navy, under a delegation of authority from the War Production Board, may grant to individual publishers the right to add to their consumption quotas the tonnage of paper consumed in certain books purchased by the Army Service Forces and by the Navy. This allotment does not cover purchase of books by military exchanges or service departments, as defined in Priorities Regulation 17. No books sold to the military are ex-quota unless the publisher has received a specific grant from the Army Service Forces or the Navy pursuant to this paragraph.

(p) *Certification to printer.* No publisher may order books to be printed unless he furnishes, or has previously furnished to the printer a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the printer and to the War Production Board that he is familiar with Order L-245 of the War Production Board and that all printing ordered from him of items regulated by that order, as amended from time to time, will be in compliance therewith.

This is a one-time certification and need not accompany each individual order.

Delivery Restrictions

(q) *Restrictions on deliveries.* No publisher may accept, and no person may knowingly accept for a publisher's use, delivery of paper if the publisher's inventory is, or by virtue of such delivery will become, greater than one-fourth of his yearly consumption quota. This restriction applies to a publisher's total inventory of all grades, qualities, types, basis weights, and sizes of paper, regardless of the quantity of any particular item in his inventory.

(r) *Certification to paper dealer or mill.* No publisher may order paper unless he furnishes, or has previously furnished, to the paper dealer or mill a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that he is familiar with Order L-245 of the War Production Board and that all purchases of items regulated by that order, as amended from time to time, will be in compliance therewith.

This is a one-time certification and need not accompany each individual order.

Miscellaneous Provisions

(s) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(t) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter referring to the particular provision appealed from, and stating fully the grounds of the appeal.

(u) *Communications to the War Production Board.* All communications concerning this order shall be addressed to: War Production Board, Printing and Publishing Division, Washington 25, D. C., Ref: L-245.

(v) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(w) *Effective date.* This amendment shall become effective on January 1, 1944.

Issued this 30th day of December 1943.

PART 3281—PULP AND PAPER

[General Conservation Order M-241, as Amended Dec. 30, 1943]

PAPER AND PAPERBOARD

§ 3281.63 *General Conservation Order M-241—(a) Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Produce" and "manufacture" mean and include all making and finish-

ing operations prior to packing or packaging.

(3) "Finished production" means paper or paperboard ready for packing or packaging.

(4) "Grade" as used in paragraph (d) means any kind of paper or paperboard for which a caption is provided in Form WPB-514, as currently revised, or any particular grade, even though not specifically mentioned, within such kind.

(c) *Restrictions on production of paper and paperboard.* Unless specifically authorized by the War Production Board, no person shall produce paper or paperboard on any paper machine (Yankee, Harper, Fourdrinier, Cylinder or Wet Machine), which did not produce paper or paperboard in the period May 1, 1943 to July 15, 1943 inclusive.

(d) *Reserve production.* (1) Each manufacturer of paper or paperboard shall reserve in the production for each of his mills for the month of January 1944 and for each calendar month thereafter time and supplies sufficient to produce and deliver within such month the following reserve production percentages:

Class	WPB-514 Caption	Percent
Paperboard.....	50000 to 59900 inclusive.	35
Condenser tissue.....	08511.....	100
Paper (other than condenser tissue).	All other captions...	15

(or any other percentage of such production by grade or in total as the War Production Board may from time to time designate by notice in writing to each mill or by publication in the FEDERAL REGISTER, at least 10 days prior to the month for which such production is reserved). When any reserve percentage is designated by grade or combination of grades, this percentage shall apply to the average monthly finished production of such grade or combination of grades which such mill has, of record, reported on WPB-514 for the most recent three calendar quarters. The War Production Board may direct, on or before the 15th day of any month, any such manufacturer to employ such reserve, subject to the provisions of paragraph (d) (2) to produce any grades of paper or paperboard which such manufacturer is qualified to produce at such mill and in any quantity not exceeding the tonnage of such reserve production represented by the percentages designated for such month by the War Production Board, and may require such manufacturer to sell and deliver such tonnage to any person named by the War Production Board. Any order taken by a mill at the direction of the War Production Board shall reduce the reserve production for which such mill is obligated by the amount of finished production represented by such order. The manufacturer may refuse so to produce and deliver such reserve production only for the reasons specified for the refusal of rated orders in § 944.2 paragraph (b) of Priorities Regulation No. 1. If the manufacturer does not on or before the 15th day of the month in which such production is reserved receive from the

War Production Board directions as to the disposition of all such production, he may employ the production for which no directions have been received as he may desire consistent with the provisions of this and other orders of the War Production Board.

(2) Any manufacturer who has voluntarily accepted directly or through another person, an order or orders for paper or paperboard to be produced for the account of any government department or agency, or for any other activity or use, listed in paragraph (d) (3) may request the War Production Board to consider the finished tonnage of such order or orders as applying against the reserve production of the mill for the month in which such order or part thereof is manufactured. For the consideration of any such request certain information is needed. The nature of this information shall be disclosed in Form WPB-3270 (this report requirement has received the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942) which may be reproduced. No mill is obligated under this order to make such request or use such form. If such form is used, it shall be filed in triplicate with the War Production Board. If such request is granted by the War Production Board, the mill is obligated to produce according to the accepted schedule and the production which the mill is obliged to hold open for direction within such month will be reduced accordingly and a record kept of such reduction by mill and by company. Whether denied or granted the mill will be advised. Failure, by a mill, to properly report its qualified orders voluntarily accepted, will result in such mills obligation for direction not being reduced by such quantities as may be represented by such orders. For example, a mill making no report will be liable to direction within the full percentage reserve.

1. United States Army
2. United States Army Map Service
3. United States Army Air Forces
4. United States Navy
5. The United States Marine Corps
6. The United States Coast Guard
7. United States Maritime Commission and War Shipping Administration

(i) No person shall knowingly deliver to any person except a paper merchant and no person except a paper merchant shall accept delivery of any quantity of paper or paperboard (other than newsprint) if the total inventory in the hands of the person accepting delivery is, or will by virtue of such acceptance become, either (a) in excess of two carloads or (b), in excess of forty-five calendar days' supply, whichever is greater, on the basis of either his average rate of consuming such paper or paperboard for the preceding quarter or his average rate of consuming such paper or paperboard as projected for the then current quarter.

(ii) Regardless of the provisions of (1) (i) above, no person shall knowingly deliver to a manufacturer of folding boxes, setup boxes, or paper shipping sacks and no manufacturer of folding boxes, setup boxes, or paper shipping sacks shall accept delivery of any quantity of paper or paperboard (other than newsprint) if the total inventory in the hands of the person accepting delivery is, or will by virtue of such acceptance become either (a) in excess of two carloads or (b) in excess of sixty calendar days' supply, whichever is greater, on the basis of either his average rate of consuming such paper or paperboard for the preceding quarter or his average rate of consuming such paper or paperboard as projected for the then current quarter.

(ii) After January 1, 1944, no person shall knowingly deliver to a paper merchant, and no paper merchant shall accept delivery of any quantity of paper or paperboard (other than newsprint) if the total inventory in the hands of such paper merchant is, or will by virtue of such acceptance become, either (a) in excess of two carloads, or (b), in excess of forty-five calendar days' supply, whichever is greater, on the basis of either his average rate of distributing such paper or paperboard for the preceding quarter or his average rate of

distributing such paper or paperboard as projected for the then current quarter.

(3) *Mill inventories.* "Mill inventory" means all paper and paperboard other than that produced or being produced for prompt shipment against a definite order.

No person shall produce at any mill any quantity of paper or paperboard, if his inventory at such mill is, or will by virtue of such production, become, in excess of (a) two carloads or (b), in excess of sixty calendar days' supply, whichever is greater, on the basis of either the average rate of shipment of paper or paperboard from such mill for the preceding quarter or the average rate of shipment of paper or paperboard from such mill as projected for the then current quarter.

(4) *Item inventories.* For inventory purposes, the term "grade" of paper or paperboard refers to the classification on United States Department of Commerce (Census) Form WPB-514, as revised February 24, 1943, or as subsequently revised, each caption (except those which are further broken down by following captions) representing a separate grade, also included as items under the appropriate captions (unless specifically excepted below) are all coated papers not mentioned by captions but for which any captioned grade or item thereunder is used as a base stock. The restrictions of paragraph (e) apply equally to paper and paperboard of foreign and domestic origin, and apply to intra company deliveries as defined in § 944.12 of Priorities Regulation No. 1. They do not, however, apply to those papers commonly reported on United States Department of Commerce (Census) Form WPB-514 as revised February 24, 1943, under the captions "Blueprint and similar base stock" (07610); "Photographic and other sensitizing stock" (07611); and "Cigarette" (08512), or to any paper or paperboard after it is printed or converted beyond waxing or coating.

(f) *Miscellaneous provisions—(1) Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(2) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

PART 1305—ADMINISTRATION

[Gen. RO 11, Amdt. 10]

REPLACEMENT OF RATIONED FOODS USED IN PRODUCTS ACQUIRED BY DESIGNATED AGENCIES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

General Ration Order 11 is amended in the following respects:

1. Section 2.1 (a) is amended by adding the following:

However, if the rationed food was not completely used up in manufacturing the products, he may obtain replacement only of that portion of the rationed food which was used up. (For example, a potato chip manufacturer may use oil to make a batch of potato chips for a designated agency, and then reuse the remaining oil to make potato chips for his other customers. If he can use the oil for five batches of potato chips, he can get replacement only for one-fifth the oil, since that was the amount used up in making the potato chips for the designated agency.)

2. Section 2.4 (d) is added to read as follows:

(d) The application may cover products of more than one type unless the designated agency requires that a separate application be submitted for each type of product or group of products.

3. Section 3.3 (d) is added to read as follows:

(d) The application may cover products of more than one type unless the designated agency requires that a separate application be submitted for each type of product or group of products.

4. Section 5.3 (a) is amended by adding the following sentence:

However, an industrial user who receives an advance under this order may use it for the purpose for which he obtained the advance, even though the ration order under which he receives his allotment does not permit him to use his allotment for that purpose.

This amendment shall become effective January 5, 1944.

TITLE 46—SHIPPING

Chapter IV—War Shipping Administration

PART 306—GENERAL AGENTS AND AGENTS

[Gen. Order 21, Supp. 4]

BERTH AGENTS

Section 306.46 is amended to read:

§ 306.46 *Berth Agent Service Agreement (BA).* (a) Unless otherwise determined by the Administrator, when a vessel assigned to an agent or general agent

is required for operation in a service in which another operator is recognized by the War Shipping Administration as a regular berth operator, or as being otherwise qualified to operate in such service, such operator will be designated by the War Shipping Administration as the Berth Agent of the United States to operate the vessel in such service.

(b) Service agreements entered into between the United States of America, acting by and through the Administrator, War Shipping Administration, and berth or other operators approved by the Administration, appointing such operators as berth agents to conduct the business of vessels assigned to them from time to time by the United States, shall be as follows:

BA (Approved 12-29-43)

Contract WSA

AGREEMENT BETWEEN THE WAR SHIPPING ADMINISTRATION AND BERTH AGENTS

Whereas the United States of America (herein called the "United States") acting by and through the Administrator, War Shipping Administration, has entered into service agreements (GAA and TCA) with certain companies designating such companies as agent or general agent to conduct the business of vessels assigned to such agents by the United States from time to time, and

Whereas when a vessel assigned to an agent or general agent is required for operation in a service in which another operator is recognized by the War Shipping Administration as a regular berth operator, or as being otherwise qualified to operate in such service, such operator will be designated by the War Shipping Administration as the berth agent of the United States, and

Whereas the United States has designated a corporation, having its principal place of business at _____, (herein called the "berth agent") as eligible for appointment as a berth agent.

Now, therefore, the United States and the berth agent, in consideration of the reciprocal undertakings and promises of the parties herein expressed, agree that the following provisions shall govern the rights and obligations of the United States and the berth agent, while the berth agent is performing services as berth agent at the request of the United States:

ARTICLE 1. The United States appoints the berth agent as its agent and not as an independent contractor, to conduct the business of vessels assigned to it by the United States from time to time.

ART. 2. The berth agent accepts the appointment and undertakes and promises so to conduct the business for the United States, in accordance with such directions, orders, or regulations as the United States has prescribed, or from time to time may prescribe, and upon the terms and conditions herein provided, of such vessels as have been or may be assigned to the berth agent by the United States for that purpose.

ART. 3A. Unless otherwise directed by the United States, the berth agent in all cases shall, to the best of its ability, for the account of the United States:

(a) Perform all of the customary duties of an agent in conducting the business of the vessels subject to this agreement, subject to the orders of the United States as to voyages, cargoes, priorities of cargoes, charters, rates of freight and other charges and as to all matters connected with the use of the vessels; or in the absence of such orders, the berth agent shall follow reasonable commercial practices;

(b) Collect all moneys due the United States under this agreement and deposit, remit, or disburse the same in accordance

with such regulations as the United States may prescribe from time to time, and account to the United States for all moneys collected or disbursed by it or its agents;

(c) Provide and pay for all fuel, fresh water, stevedoring and other cargo handling expense, port charges, wharfage and dockage, pilotages, agencies, canal dues, commissions, and consular charges, except those pertaining to the master, officers and crew, and all other expenses incident to the business of the vessels to the extent that such items and expenses are for the account of the United States: *Provided*, That, where the United States has entered into agreements for any of the foregoing items (such as for stevedoring and supplying fuel), the berth agent shall see that the items are furnished pursuant to the provisions of such agreements and shall make the necessary arrangements with the district manager, or other representative of the United States therefor;

(d) Issue or cause to be issued to shippers customary freight contracts and bills of lading in the form prescribed by the United States, and prepare manifests and other cargo documents. Where appropriate, issue or cause to be issued to passengers customary passenger tickets in the form prescribed by the United States.

Art. 3B. The berth agent agrees, without prejudice to its rights under the provisions of Articles 8 and 16 hereof, to:

(a) Perform the duties required to be performed by it hereunder in an economical and efficient manner, and exercise due diligence to protect and safeguard the interests of the United States in all respects and to avoid loss and damage of every nature to the United States;

(b) Exercise due diligence to see that all bills of lading are properly issued, all wharf receipts for freight are non-negotiable and, where required, a freight contract or permit is issued for each shipment;

(c) Furnish and maintain during the period of this agreement, at its own expense, a bond with sufficient surety, in such amount as the United States shall determine, such bond to be approved by the United States as to both sufficiency of surety or sureties and form, and to be conditioned upon the due and faithful performance of all and singular the covenants and agreements of the berth agent contained in this agreement, including, without limitation of the foregoing, the condition faithfully to account to the United States for all funds collected and disbursed and funds and property received by the berth agent or its agents. The berth agent may, in lieu of furnishing such bond, pledge direct or fully guaranteed obligations of the United States of America of the face value of the penalty of the bond under an agreement satisfactory in form to the United States;

(d) Without the consent of the United States, not sell, assign or transfer, either directly or indirectly or through any reorganization, merger or consolidation, this agreement or any interest therein, nor make any agreement or arrangement whereby the service to be performed hereunder is to be performed by any other person, whether an agent or otherwise, except as provided in Article 6 hereof.

Art. 4. (a) The berth agent and, to the extent required by the United States, every related or affiliated company or holding company of the berth agent, authorized as provided in Article 13 hereof, to render any service or to furnish any stores, supplies, equipment, provisions, materials, or facilities which are for the account of the United States, under the terms of this agreement, shall (1) keep its books, records and accounts relating to the management, operation, conduct of the business of the vessels covered by this agreement in such form and under such regulations as may be prescribed

by the United States; and (2) file, upon notice from the United States, balance sheets, profit and loss statements, and such other statements of operation, special reports, memoranda of any facts and transactions, which, in the opinion of the United States, affect the results in, the performance of, or transactions or operations under this agreement.

(b) The United States is hereby authorized to examine and audit the books, records and accounts of all persons referred to above in this article whenever it may deem it necessary or desirable.

(c) Upon the willful failure or willful refusal of any person described in this article to comply with the provisions of this article, the United States may rescind this agreement.

Art. 5. At least once a month the United States shall pay to the berth agent as full compensation for the berth agent's services hereunder, such fair and reasonable amount as the Administrator, War Shipping Administration, shall from time to time determine. Such compensation shall be deemed to cover, but without limitation, the berth agent's administrative and general expense (as presently itemized in General Order No. 22 of the United States Maritime Commission), advertising expense, taxes (other than taxes for which the berth agent is reimbursed under Article 7 hereof), and any other expenses which are not directly and exclusively applicable to the operation of the vessels hereunder.

Art. 6. The berth agent shall exercise due diligence in the selection of agents. Such agents shall be subject to disapproval by the United States and any agency agreement shall be terminated by the berth agent whenever the United States shall so direct. Any compensation payable by the berth agent to its agents for services rendered in connection with the vessels assigned hereunder shall be subject to approval by the United States. Agency fees or equivalent allowances for branch offices in accordance with schedules approved by the United States will be reimbursable under Article 7 hereof.

Art. 7. The United States shall reimburse the berth agent at stated intervals determined by the United States for all expenditures of every kind made by it in performing, procuring or supplying the services, facilities, stores, supplies or equipment as required hereunder, excepting administrative and general expense (as presently itemized in General Order No. 22 of the United States Maritime Commission), advertising expense, taxes (other than sales and similar taxes or foreign taxes of any kind to the extent determined by the United States to be classifiable as voyage expenses for the account of the United States) and any other expenses which are not directly and exclusively applicable to the maintenance, management, operation or the conduct of the business of the vessels hereunder. The berth agent shall be reimbursed for sales and similar taxes or foreign taxes of any kind to the extent determined by the United States to be classifiable as voyage expenses for the account of the United States to the extent that the berth agent shall have used due diligence to secure immunity from such taxation. The United States may disallow, in whole or in part, as it may deem appropriate, and deny reimbursement for, expenses which are found to have been made in willful contravention of any outstanding instructions or which were clearly imprudent or excessive.

Any moneys advanced to bonded persons by the berth agent for ship disbursements which are lost by reason of a casualty to the vessel on which the money so advanced is carried shall in the event of such loss be considered an expense of the berth agent, subject to reimbursement as is in this Article 7 provided.

The United States may advance moneys to the berth agent to provide for disbursements hereunder in accordance with such regulations or conditions as the United States may from time to time prescribe.

Art. 8. The United States shall without cost or expense to the berth agent procure or provide insurance against, or shall assume, all insurable risks of whatsoever nature or kind relating to the vessels assigned hereunder including, but without limitation, marine, war and P. & I. risks, and all other risks or liabilities for breach of statute and for damage caused to other vessels, persons or property, and shall defend, indemnify and save harmless the berth agent against and from any and all loss, liability, damage and expense (including costs of court and reasonable attorney's fees) on account of such risks and liabilities, to the extent not covered or not fully covered by insurance. The berth agent shall furnish reports and information and comply fully with all instructions that may be issued by the United States with regard to all salvage claims, damages, losses or other claims. Neither the United States nor the insurance underwriters shall have any right of subrogation against the berth agent with respect to such risks.

Art. 9. In the event of general average involving vessels assigned to the berth agent under this agreement, the berth agent shall comply fully with all instructions issued by the United States in that connection including instructions as to the appointment of adjuster, obtaining general average security and asserting liens for that purpose unless otherwise instructed, and supplying the adjuster with all disbursements accounts, documents and data required in the adjustment, statement and settlement of the general average. Reasonable compensation for and general average allowances to the berth agent in such cases shall be in accordance with directions, orders or regulations of the United States. This article shall not apply to services required of the owner under time charter.

Art. 10. The negotiation and settlement of all salvage claims for services rendered by vessels under time charter to the United States shall be controlled by the owner and the United States in accordance with the provisions of the applicable time charter. The negotiation and settlement of all salvage claims for services rendered by vessels owned by, or bareboat chartered to, the United States shall be controlled by the United States. The berth agent shall furnish the United States and, in the case of time-chartered vessels, the vessel owner, with full reports and information on all salvage services rendered.

Art. 11. (a) The United States shall have the right to terminate this agreement at any time as to any and all vessels assigned to the berth agent and to assume control forthwith of the business of said vessels upon fifteen (15) days' written or telegraphic notice.

(b) Upon giving to the United States thirty (30) days' written or telegraphic notice, the berth agent shall have the right to terminate this Agreement, but termination by the berth agent shall not become effective as to any vessel until her arrival and discharge at a continental United States port.

(c) This agreement may be terminated, modified, or amended at any time by mutual consent.

Art. 12. In case of termination of this agreement, whether upon expiration of the stated period hereof or otherwise, all property of whatsoever kind then in the custody of the berth agent pursuant to this agreement, shall be immediately turned over to the United States at times and places to be fixed by the United States, and the United States may collect directly, or by such agent or agents as it may appoint, all freight moneys or other debts remaining unpaid: *Provided*,

That the berth agent shall, if required by the United States, adjust, settle and liquidate the current business of the vessels. Notwithstanding the foregoing provisions, when the United States shall so direct, the berth agent shall complete the business of voyages commenced prior to the date as of which the agreement shall be terminated, and, if directed by the United States and subject to any instructions issued by the United States with respect thereto, the berth agent shall continue to book cargo for the vessels for the next voyages after the termination of this agreement. No such termination of this agreement shall relieve either party of liability to the other in respect of matters arising prior to the date of such termination or of any obligation hereunder to indemnify the other party in respect of any claim or demand thereafter asserted, arising out of any matter done or omitted prior to the date of such termination.

ART. 13. Agreements or arrangements with any interested or related company to render any service or to furnish any stores, supplies, equipment, materials, or facilities shall be submitted to the United States for approval as to employment. Unless and until such agreements or arrangements have been approved by the United States, compensation paid to any interested or related company shall be subject to review and readjustment by the United States. In connection with such review and readjustment, the United States may deny reimbursement hereunder of any portion of such compensation which it deems to be in excess of fair and reasonable compensation. The United States may also deny reimbursement, in whole or in part, of compensation under any arrangement or agreement with an interested or related company which it deems to be exorbitant, extortionate or fraudulent. The term "interested company" shall mean any person, firm, or corporation in which the berth agent, or any related company of the berth agent, or any officer or director of the berth agent, or any employee of the berth agent who is charged with executive or supervisory duties, or any member of the immediate family of any such officer, director or employee, or any officer or director of any related company of the berth agent, or any member of the immediate family of an officer or director of any related company of the berth agent, owns any substantial pecuniary interest directly or indirectly. The term "related company", used to indicate a relationship with the berth agent for the purposes of this article only, shall include any person or concern that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the berth agent. The term "control" (including the terms "controlled by" and "under common control with") as used herein means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of the berth agent (or related company), whether through ownership or voting securities, by contract, or otherwise.

ART. 14. This agreement, unless sooner terminated, shall extend until six months after the cessation of hostilities.

ART. 15. The United States shall, when it may legally do so, have the advantage of any existing, or future, contracts of the berth agent for the purchase or rental of materials, fuel, supplies, facilities, services, or equipment, if this may be done without unreasonably interfering with the requirements of other vessels owned or operated by the berth agent.

ART. 16. (a) The United States shall indemnify, and hold harmless and defend the berth agent against any and all claims and demands (including costs and reasonable attorneys' fees in defending such claim or demand, whether or not the claim or demand

be found to be valid) of whatsoever kind or nature and by whomsoever asserted for injury to persons or property arising out of or in any way connected with the operation or use of said vessels or the performance by the berth agent of any of its obligations hereunder, including but not limited to any and all claims and demands by passengers, troops, gun crews, crew members, shippers, third persons, or other vessels, and including but not limited to claims for damages for injury to or loss of property, cargo or personal effects, and claims for damages for personal injury or loss of life.

However, the berth agent may be held liable for loss or damage not covered by insurance or assumed by the United States as required under Article 8 of this agreement, if such loss or damage is directly and primarily caused by willful misconduct of principal supervisory shore-side personnel or by gross negligence of the berth agent in the selection of such principal supervisory personnel.

(c) In the event that the berth agent shall perform any stevedoring, terminal, or similar service for the vessels hereunder at commercial rates, the berth agent shall have all the obligations and responsibilities of the person performing such service under the standard or other approved form of contract with the United States or, in the absence of such standard or approved form, under usual commercial practice.

In performing its services hereunder, the berth agent may rely upon the instructions and directions of the Administrator, his officers and responsible employees, or upon the instructions and directions of any person or agency authorized by the Administrator. Wherever practicable, the berth agent shall request written confirmation of any oral instructions or directions so given.

ART. 18. (a) The berth agent warrants that it has not employed any person to solicit or secure this agreement upon any agreement for a commission, percentage, brokerage or contingent fee. Breach of this warranty shall give the United States the right to annul this agreement or in its discretion to deduct from any amount payable hereunder the amount of such commission, percentage, brokerage or contingent fee.

(b) In any act performed under this agreement, the berth agent and any subcontractor shall not discriminate against any citizen of the United States of America on the ground of race, creed, color or national origin.

(1) "Biddeford-Saco area" shall include the following cities and towns in the State of Maine: Biddeford, Buxton, Dayton, Kennebunk, Kennebunkport, Lyman, North Kennebunkport, Old Orchard Beach, Saco, and Wells except for the Village of Ogunquit.

(2) "Specified solid fuels" shall include all Pennsylvania anthracite, ambricoal and coke.

(3) "Pennsylvania anthracite" means coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(4) "Broken", "egg", "stove", "chestnut," etc., sizes of Pennsylvania anthracite refer to the sizes of such coal prepared at the mine in accordance with standard sizing specifications adopted by the Anthracite Emergency Committee, effective December 15, 1941.

(5) "Ambricoal" means anthracite briquettes manufactured by American Briquet Company at its plant at Lykens, Pennsylvania, and marketed under that trade name.

(6) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven, or a briquette plant.

(7) "Direct delivery" means dumping or chuting the fuel from the seller's truck or wagon directly into the buyer's bin or storage space; but, if that is physically impossible, the term means discharging the fuel directly from the seller's truck at the point where this can be done which is nearest and most accessible to the buyer's bin or storage space.

(8) "Carry" and "wheel" refer to the movement of fuel to buyer's bin or storage space by wheelbarrow, barrel, bag, sack or otherwise from the dealer's truck or wagon, or from the point of discharge therefrom, to buyer's bin or storage space.

(9) "Yard sales" shall mean deliveries made by the dealer in his customary manner at his yard.

(j) *Posting of maximum prices; sales slips and receipts.* (1) Every dealer subject to this Order G-33 shall post all of the maximum prices established hereby which apply to the types of sales made by him in his place of business in a manner plainly visible to and understandable by the purchasing public, and shall keep a copy of this Order G-33 available for examination by any person during ordinary business hours. In the case of a dealer who sells directly to consumers from a truck or wagon, the posting shall be done on the truck or wagon. The prices established hereby need not be reported under § 1340.262 (c) of Revised Maximum Price Regulation No. 122,

No. 260—6

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this Order G-33 shall give to each purchaser an invoice or similar document showing (a) the date of the sale or delivery, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, and the price charged; and (b) separately stating any special services rendered and deposit charges made and the amount charged therefor. This paragraph (j) (2) shall not apply to sales of quantities of less than one-quarter ton unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December, 1941, customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size and quantity of the solid fuel sold to him or the price charged, the dealer shall comply with the buyer's request as made by him.

(k) *Records.* Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof showing the date, the name and address of the buyer (if known), the per net ton price charged and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in this order. The record shall also separately state each service rendered and the charge made for it.

(l) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed in the Boston Regional Office of the Office of Price Administration. No appeal from a denial in whole or in part of such petition by the Regional Administrator may be made to the Price Administrator.

(m) This order may be revoked, amended or corrected at any time.

NOTE: The reporting and record-keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G-33 shall become effective December 27, 1943.

[Region II Order G-25 Under RMPR 122]

PENNSYLVANIA ANTHRACITE IN ST. LAWRENCE COUNTY, N. Y.

Order No. G-25 under §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Pennsylvania anthracite delivered by dealers in St. Lawrence County, State of New York—Coal Area V.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does—(1) Dealers' maximum prices; area covered.* If you are a dealer in "Pennsylvania anthracite," this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in Coal Area V which comprises all of St. Lawrence County in the State of New York.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Coal Area V are set forth in Schedule I hereafter.

(3) *To what sales this order applies.* If you are a dealer in anthracite you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Coal Area V whether or not you are located in Coal Area V.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedule herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) Refer to Schedule I which contains a separate table of prices for "direct-delivery" sales and "yard sales" of anthracite. (You will find Schedule I in paragraph (d).)

(2) Take the dollars-and-cents figures set forth in the applicable table of the schedule, for the sizes and quantity you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified therein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in Schedule I.

(5) If you deliver a fraction of a net ton, even if less than one-half ton, and the applicable schedule provides a cash discount on the basis of one ton or one-half ton, you shall allow a proportionate discount, making your calculations to the nearest full cent. For example, if you are required to deduct 50¢ per net ton for cash payment, you shall deduct 38¢ for three-quarters of a ton and 13¢ for one-quarter of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-half ton, and the schedule provides a service charge on the basis of one ton, you shall add no more than a proportionate service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 50¢ per ton, you shall not add more than 38¢ for performance of that service in connection with the delivery of three-quarters of a ton.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Coal Area V. There is a separate table of prices for "direct-delivery" sales and "yard sales".

(1) *Sales on a "direct-delivery" basis.*

Maximum Authorized Service Charges

Special service rendered at the request of the purchaser:

Bagging (putting coal in bags furnished by the purchaser, or bags to be returned to dealer, for the purpose of facilitating delivery). 50¢ per net ton.
This charge does not apply to bagged coal prices in table (2).

(e) *Commingleing.* If you sell one size of anthracite, commingled with another size of anthracite, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, whether the sale be a "direct-delivery" sale or "yard sale", except in the following situation. Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, in that event, if those sizes are separately weighed at the point of loading, or when bagged, the dealer may commingle those sizes in the truck or other vehicle, or in the bags, in which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price, or, in the case of bagged coal, on the basis of the applicable bagged price, for each size in the combination, and the invoice shall separately state the price, so determined,

for the quantity of each size in the combination.

(f) *Ex Parte 148, freight rate increase.* Since the Ex Parte 148 Freight Rate Increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rates.

(g) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment

to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(h) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, you need not state this tax separately.

(i) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(j) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(k) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(l) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(m) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charge, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(n) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable table and schedule of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(o) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Syracuse District Office of the Office of Price Administration or with the Price Panel of the appropriate War Price and Rationing Board.

(p) *Definitions and explanations.* When used in this Order No. G-25 the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(6) "Direct delivery", except with respect to sales in 100 lb. lots, means delivery to the buyer's bin or storage space by dumping or chuting directly from the seller's truck or vehicle, or, where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage

space and at which the coal can be discharged directly from the seller's truck. "Direct delivery" in 100 lb. lots shall mean depositing in buyer's bin or other storage space designated by buyer.

(7) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space in baskets or other containers, or by wheelbarrow or barrel, from seller's truck or vehicle, or from the point nearest and most accessible to the buyer's bin or storage space at which the coal is discharged from the seller's truck in the course of "direct delivery".

(8) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car, or at a place of business of the seller other than at seller's truck or vehicle.

[Region IV Order G-12 Under RMPR 122]

SOLID FUELS IN AUGUSTA, GA., AREA

Order No. G-12 under § 1340.260 of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Maximum prices for solid fuels in the City of Augusta and certain adjacent territory in the State of Georgia.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does.* (1) This order establishes maximum prices for sales of specified solid fuels when the delivery is made to any point within the corporate limits of the City of Augusta, Georgia, and the area lying within twenty miles thereof by the most direct highway route.

(2) This order contains a price schedule applicable to sales of high volatile bituminous coal from District 8.

(b) *What this order prohibits.* Regardless of any obligation, no person shall:

(1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this Order No. G-12 but less than maximum prices may at any time be charged, paid or offered.

(2) Obtain a higher than maximum price by:

(i) Charging for a service which is not expressly requested by the buyer and which is not specifically authorized by this order.

(ii) Using any tying agreement or making any requirement that anything other than the fuel requested by the buyer be purchased by him, or

(iii) Using any other device by which a higher than maximum price is obtained, directly or indirectly.

(c) *Price schedule, consumer sales.*

(1) This price schedule sets forth maximum prices for sales of specified solid fuels when delivery is made to any point within the corporate limits of the City of Augusta, Georgia, and the area lying within twenty miles thereof by the most direct highway route.

(i) "Direct delivery or domestic" basis.

High volatile bituminous coal from District No. 8

Size	Per ton 2,000 lbs.	Per ½ ton 1,000 lbs.	Per ¼ ton 500 lbs.
Lump, chunk, or block.....	\$10.05	\$5.28	\$2.76
Egg.....	10.05	5.28	2.76
Stoker.....	10.00	5.25	2.87
Slack.....	6.95	3.73	2.12

(ii) *Special sales and services—(a) Carry from curb.* Only if the buyer re-

quests such service, the dealer may charge for such service a sum no greater than 50¢ per ton.

(b) *Sack coal.* For coal in sacks the dealer may charge not more than 51¢ for 75 pounds at the yard, and 61¢ for 75 pounds if the dealer makes delivery.

(c) *Yard sales.* When the buyer picks up coal at the dealer's yard, the dealer must reduce the domestic price 50¢ per ton.

(d) *Quantity.* On sales of from 20 to 30 tons to a single purchaser in a single order, the dealer must reduce his domestic price 25¢ per ton. On sales of more than 30 tons to a single purchaser in a single order, the dealer must reduce his domestic price 50¢ per ton.

(e) *Terms.* All of the maximum prices contained in this price schedule are net for cash. However, a dealer may make an additional charge for the extension of credit of not more than 50¢ per ton.

(f) *Delivery zone.* For deliveries beyond the corporate limits of Augusta, Georgia, and within twenty miles thereof, the dealer may make an additional charge of not more than 10¢ per mile per ton for each mile beyond the corporate limits of such city, with a minimum charge of 50¢ per ton for each such delivery, said mileage to be determined by the actual highway mileage from the city limits to the point of delivery by the most direct highway route.

(d) *Ex Parte 148 freight rate increase; transportation tax—(1) The freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealer's freight rates are the same as those of December 1941. Therefore, no dealer may increase any schedule price on account of freight rates.

(2) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order provided the dealer states it separately from the price on the statement given to the buyer under paragraph (i) (2). (This tax need not be stated separately in sales to the United States or any agency thereof—see Amendment 12 to Revised Maximum Price Regulation 122.) No part of this tax may be collected in addition to the maximum prices on sales of quarter-ton or lesser quantities or on sales of any quantity of bagged coal.

(e) *Addition of increase in supplier's prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Administrator.

(f) *Power to amend or revoke.* The Price Administrator or Regional Administrator may amend, revoke, or rescind this order, or any provision thereof, at any time.

(g) *Petitions for amendment.* Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural

Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(1) *Applicability of other regulations.* Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is granted to all persons selling, at retail, commodities for which maximum prices are established. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(h) *Records and reports.* Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also separately state each service rendered and the charge made for it.

It is not necessary that these maximum prices be filed with the War Price and Rationing Boards.

(i) *Posting of maximum prices; sales slips and receipts.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, the price charged, and separately stating any item which is required to be separately stated by this order. This paragraph (i) (2) shall not apply to sales of quantities of less than quarter-ton or to sales of bagged coal unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December, 1941, customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size and quantity of the solid fuel sold to him or the price charged, the dealer shall comply with the buyer's request as made by him.

(j) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Savannah District Office of the Office of Price Administration.

(k) *Definitions and explanations.* When used in this Order No. G-12, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor representative of any of the foregoing, and includes the United States, any other government, or any agency or subdivision of any of the foregoing.

(2) "Sell" includes sell, dispose, barter, exchange, supply, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase", and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven, or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but, if this is physically impossible, the term means discharging the fuel directly from the seller's truck at a point where this can be done and at the point nearest and most accessible to the buyer's bin or storage space.

"Direct delivery" of bagged fuel or any fuel in quarter-ton or lesser lots always means delivery to the buyer's storage space.

(5) "Carry from curb" refers to the movement of fuel to the buyer's bin or storage space by wheelbarrow, barrel, sack or otherwise from the seller's truck or from the point of discharge therefrom when made in the course of "direct delivery."

(6) "Yard sales" shall mean deliveries made by the dealer in his customary manner at his yard or at any place other than his truck.

(7) "District No." refers to the geographical bituminous coal-producing districts as delineated and numbered by the Bituminous Coal Act of 1937, as amended, as they have been modified by the Bituminous Coal Division and as in effect at midnight August 23, 1943.

(8) "High volatile bituminous coal" refers to coal produced in certain sections of the producing districts specified herein.

(9) "Egg, stove, stoker, etc." sizes of bituminous coal refer to the size of such coal as defined in the Bituminous Coal Act of 1937, as amended, and as prepared at the mine in accordance with the applicable minimum price schedule promulgated by the Bituminous Coal Division of the United States Department of the Interior and in effect (or established) as of midnight August 23, 1943. Where the applicable minimum price schedule does not make specific mention of any size designated in this order, such size designation shall refer to the sizes of bituminous coal sold as such during December, 1941, in the area covered by this order.

(10) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in

§§ 1340.355 and 1340.266 of Regulation No. 122 shall apply to terms used herein.

(1) *Effect of order on Revised Maximum Price Regulation No. 122.* To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

NOTE: The record keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G-12 shall become effective December 27, 1943.

[Region VIII Order G-79 Under 18 (c)]

FIREWOOD IN DESIGNATED CALIFORNIA AREAS

Order No. G-79 under § 1499.18 (c), as amended, of the General Maximum Price Regulation. Adjusted maximum prices for firewood in certain areas in California.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1499.18 (c), as amended, of the General Maximum Price Regulation, it is hereby ordered as follows:

(a) *Adjusted maximum prices for firewood.* This order adjusts the maximum prices for firewood in certain areas in California as established by the General Maximum Price Regulation, and fixes adjusted maximum prices in areas covered by this order. Where the term "maximum prices" is used herein, it shall mean such adjusted maximum prices, unless the text of a particular provision indicates otherwise.

The maximum prices for firewood sold in any area covered by this order are governed by the Appendix which covers the area in which the sale is made. The maximum price for each item of firewood when sold within an area for which prices are set by an Appendix to this order, shall be the following:

(1) *Sales at retail.* The maximum prices for sales at retail set forth in the appropriate Appendix hereto shall govern sales in the area in which the sale is made.

(i) Except as otherwise indicated in the appropriate Appendix, prices are delivered prices.

(a) In the event the seller at retail does not deliver, but sells f. o. b. his yard, the retailer shall deduct from said maximum price, an amount equal to the differential between the delivered price and the f. o. b. price which said retailer had established in March, 1942, for f. o. b. sales as compared with delivered sales.

(b) In the event any retailer had no such established differential in March, 1942, the amount of deduction shall be an amount equal to the cost to the customer of having the firewood delivered by the most usual and reasonable method.

(c) In no event, however, shall a seller at retail refuse to sell to a purchaser on a delivered basis, if the customer desires to purchase the firewood on a delivered basis.

(d) Any dealer may charge an additional amount indicated in the appropriate Appendix which governs sales at retail in the area in which the sale is made as a "storage charge" for rendering the service of piling the firewood in a particular place on the consumer's premises, if the consumer requests such service.

(2) *Sales other than at retail—(i) Cord wood—(a) Sales at roadside.* The maximum price for sales of cord wood by cutters at roadside is the price set forth in the appropriate appendix for such sales in the area in which the sale is made.

(b) *Cutter's sales other than at roadside.* If the cutter sells firewood other than at roadside, the maximum price on such sales shall be the maximum price at roadside, determined in accordance with the provisions of paragraph (a) above, plus the customary differential which existed for such sales in March 1942. If the cutter was not in business in March 1942, he shall use the differential used in March 1942 by the most closely competitive cutter.

(c) *Sales by other than cutters.* The maximum price for sales by all intermediate sellers, other than cutters, shall be the cutter's maximum price, as determined in paragraph (a) or (b) above, or the intermediate seller's actual purchase price, whichever is lower, plus the customary differential for such sale in effect in March 1942. If the intermediate seller was not in business in March 1942, he shall use the differential used in March 1942 by the most closely competitive intermediate seller.

(i) *Special Services.* If the purchaser requests the seller to pile the wood in the purchaser's yard, such seller may make a charge for such service. Such charge shall not exceed the charge which the seller would have made for such service in March 1942.

(b) *Mixed sales.* In the event that a seller sells any lot of wood which contains two or more classes of firewood which, under the terms of this order have different maximum prices, the maximum price of the entire lot of wood shall be determined by ascertaining the quantity of each class of wood in the lot, and charging the proper maximum price applicable to the amount of each class of wood in the lot. In such case, the seller may not add to the price of each individual item of wood the additional amount allowed where fractional cords of wood are ordered by and sold to consumers. Further, the seller must, in his invoice, itemize the type, quantity, and price of each class in the shipment.

(c) *Adjustment of maximum prices for different classes of customers.* If the seller had an established practice in March of 1942, of giving allowances, discounts, or other price differentials, to different classes of purchasers, he is required to continue this practice, and his maximum prices calculated for any type of firewood must be reduced to reflect such allowances, discounts and price differentials. No seller shall change his customary allowances, discounts or other differentials unless such change results in a lower price.

(d) *Applicability of maximum prices.* The prices established by this order apply only to sellers selling firewood at retail and to sellers selling other than at retail. However, this order does not apply to mills selling mill waste.

The provisions fixing said prices are expressly subject to the provisions of section 3.2 (a) of Revised Supplementary Regulation No. 1, as amended, to the General Maximum Price Regulation.

(e) *Less than maximum prices.* Lower prices than those set forth in this order

may be charged, demanded, paid, or offered.

(f) *Areas covered by this order.* The areas covered by this order are those areas indicated in the various Appendices to this order.

(g) *Applicability of the General Maximum Price Regulation and price orders—*

(1) *Price orders.* (i) Price orders No. 2 and 3 issued by the Northern California State Office pursuant to the provisions of Supplementary Regulation 15 to the General Maximum Price Regulation are hereby revoked.

(ii) Maximum prices in the areas covered by Price Orders No. 1 and 4 issued by the Northern California State Office remain subject to such orders, except as superseded by appendices to this order which may be issued, setting prices in areas covered by such orders. Insofar as Price Orders No. 1 and 4 cover areas not covered by this order, such orders will remain in full force and effect in such areas unless and until they are revoked.

(2) *General Maximum Price Regulation.* Where an appendix to this order sets maximum prices for firewood in a particular area, the maximum prices in such area for all kinds, sizes and lengths of firewood other than those specifically named in the appendix which covers that area shall be governed by the General Maximum Price Regulation.

(h) *Evasion.* (1) The price limitations set forth in this order shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to firewood in the areas covered by said order alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge or discount, premium or other privilege, or by tying agreement or other trade understanding, or otherwise.

(2) Without limiting the generality of the foregoing, the price limitations set forth herein shall not be evaded by improper classification of any item of firewood, splitting of orders into small quantities in order to increase prices (except as specifically allowed in this order), discontinuing or increasing the cost of delivery, or by decreasing or discontinuing cash discounts.

(3) The maximum prices herein set forth shall not be evaded by any practice or practices of any seller in connection with the cutting or splitting of firewood to a particular size demanded by the customer. If larger pieces of firewood are cut to a special size demanded by the customer, the quantity of wood for which the customer is to be charged is to be measured after said cutting and not before. In such case, the customer should be charged only on the basis of the measured cord or fraction thereof after the cutting has been completed, and the customer should be billed only for the measured cord or fraction thereof, after the said cutting, actually delivered to the customer.

(i) *Records and reports.* Every seller of firewood subject to this order and every buyer in the course of trade or business shall preserve for examination by representatives of the Office of Price Administration copies of invoices covering each sale of firewood.

(j) *Definitions.* (1) "Firewood" means any wood prepared and maintained for consumption of fuel.

(2) "Mill blocks" means the trimming of finished lumber from lumber, box, planing and similar mills.

(3) "Slab wood" means the wood, including the bark, cut from the side of a log at a lumber mill.

(4) "Cord" means any pile of firewood containing 128 cubic feet of firewood.

(5) "Delivered" means delivered to the curb of the customer.

(6) "At roadside" means along side a road near the point of cutting, which is reasonably convenient to the buyer.

(7) "Storage charge" means an extra charge made for the piling of cord wood on the premises of the consumer. Such storage charge is to be added to the price of the firewood only when such additional service is requested by the purchaser.

(8) "Sales other than at retail" means all sales except sales to ultimate consumers: *Provided, however,* That this does not refer to sales covered by section 3.2 (a) of Revised Supplementary Regulation No. 1, as amended, to the General Maximum Price Regulation, nor to sales by mills of mill waste.

(k) *Revocation.* This order may be revoked or amended at any time.

(l) *Effective date.* This order shall become effective December 15, 1943.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681)

INTERNATIONAL UTILITIES CORP. AND DOMINION GAS AND ELECTRIC CO.

ORDER EXTENDING EXEMPTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 28th day of December 1943.

The Commission having heretofore on June 12, 1941, after opportunity for hearing, ordered, pursuant to sections 3 (a) (5) and 3 (b) of the Public Utility Holding Company Act of 1935, that: (1) Dominion Gas and Electric Company, a registered holding company and a subsidiary company of International Utilities Corporation, a registered holding company, be exempt to June 30, 1943, to the extent specified, from sections 13 (a) and 13 (b) of said act applicable to it as a registered holding company and subsidiary company; and (2) Canadian Western Natural Gas, Light, Heat and Power Company, Limited, Northwestern Utilities, Limited, Canadian Utilities, Limited, North West Fidelity Trust Company Limited, Domalta Petroleum, Limited, and Altoba Gas Exploration Company, Limited, all subsidiary companies of Dominion Gas and Electric Company, be exempt, to the extent specified, from certain provisions of said act applicable to them as subsidiary companies; and

The Commission having heretofore on June 29, 1943, extended such exemption to December 31, 1943; and

Dominion Gas and Electric Company, having on December 4, 1943, filed an application pursuant to sections 3 (a) (5) and 3 (b) of said act seeking an extension of time during which such previous order should be effective; and

The Commission having considered such application and it appearing that the circumstances upon which such original order of exemption was issued still exist and that a further extension of the time during which such order of exemption shall be effective will not be detrimental to the public interest or the interests of investors or consumers; it appearing, however, that the section 11 (e) plan of International Utilities Corporation and subsidiaries now pending before the Commission will, if consummated, result in the termination of the existence of Dominion Gas and Electric Company;

It is therefore ordered, That the time during which such order of exemption shall be effective be, and hereby is, extended to the extent and subject to the conditions heretofore designated in our order of June 12, 1941, until June 30, 1944, without prejudice to the right of Dominion Gas and Electric Company to apply for a further extension of the time during which such order shall be effective and to apply at any time for such enlargement of any provision of such order as it may deem appropriate.

By the Commission.

COLUMBIA GAS & ELECTRIC CORP.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 28th day of December 1943.

The Commission by order dated January 25, 1939, having permitted a declaration by Columbia Gas & Electric Corporation, a registered holding company and a subsidiary of The United Corporation, also a registered holding company, to become effective regarding the reduction of the common capital stock account of Columbia Gas & Electric Corporation from \$194,349,005.62 to \$12,304,282, so as to create a "Special Capital Surplus" of \$182,044,723.62, and freezing, for certain specified purposes, the balance in its surplus account as of December 31, 1937, in the amount of \$13,261,609.45 in an account designated "Surplus Prior to January 1, 1938" and said order having provided, in part, that

3. * * * unless the time be extended by application to this Commission and order thereon, balances remaining in "Special Capital Surplus" and "Surplus Prior to January 1, 1938" on December 31, 1942 shall be restored to common capital stock account as of the date last mentioned;

and

Columbia Gas & Electric Corporation having filed an application and amendment thereto for a further extension to December 31, 1944, of the date, heretofore extended from December 31, 1942, to December 31, 1943, by the Commission's order of December 30, 1942 (Holding Company Act Release No. 4036), on which the balances remaining in the accounts of Columbia Gas & Electric Corporation designated "Special Capital Surplus" and "Surplus Prior to January 1, 1938" must be restored to the common capital stock account; and

Columbia Gas & Electric Corporation having made various adjustments and deductions to the surplus accounts, leaving balances remaining as at October 31, 1943, of \$95,515,998.66 in "Special Capital Surplus" and \$939,904.63 in "Surplus Prior to January 1, 1938", and stating that as to such remaining balance

the determination of the original cost of the fixed assets of its subsidiary companies is a necessary prerequisite to a final decision as to the amounts remaining in "Special Capital Surplus" and "Surplus Prior to January 1, 1938" accounts which are to be restored to the common capital stock account; and having stated that original cost studies covering approximately 43% of the total recorded property of its subsidiaries have been completed and, although diligently pressed, unexpected delays in the completion by its subsidiaries of their studies and in obtaining final determination as to such studies from regulatory authorities have rendered it impossible for final adjustments to be made; and

Said application having been filed on December 8, 1943, and an amendment thereto having been filed on December 16, 1943, and acceleration of the effective date of the application having been requested; and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application within the period prescribed in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding that it is not detrimental to the public interest or to the interests of investors or consumers to grant the requested extension,

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid application be, and the same is hereby, granted.

It is further ordered, That nothing herein contained is to be construed as a waiver or modification of any of the other terms and conditions contained in our orders of January 25, 1939, and December 30, 1942, entered in this matter.

By the Commission.

CITIES SERVICE CO., ET AL.

ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 28th day of December 1943.

In the matters of Cities Service Company, Empire Gas and Fuel Company, Cities Service Gas Company, Cities Service Oil Company (Delaware), and Indian Territory Illuminating Oil Company, respondents, File No. 59-46; Cities Service Company and Empire Gas and Fuel Company, respondents, File No. 4-36.

The Commission having on the 3d day of July 1941 and on the 4th day of May 1942 issued notices of and orders for hearings pursuant to sections 11 (b) (2), 12 (c), 12 (f) and 15 (f) of the Public Utility Holding Company Act of 1935 in the above styled matters; and

The Commission having on the 3d day of August 1942 issued its findings, opinion and order and a report approving and reporting on a plan of recapitalization of Empire Gas and Fuel Company, a subsidiary company of Cities Service Company, a registered holding company, pursuant to which Empire Gas and Fuel Company was authorized to offer 3½% sinking fund debentures in exchange for its outstanding preferred stocks held by the public; and

Such plan having provided that it should become effective upon the acceptance of such exchange offer by the holders of 85% or more of the preferred stock held by others than Cities Service Company; and

Such order having provided for a reservation of jurisdiction by the Commission in respect of the said proceedings under sections 11 (b) (2), 12 (c), 12 (f) and 15 (f) should the plan, for any reason, fail to be consummated and, in the event the plan should become operative upon less than 100% acceptance, in respect of such further proceedings as should be deemed appropriate with respect to the shares of the publicly held preferred stock of Empire Gas and Fuel Company, which might not have been deposited under the plan; and

Such order having also provided for a reservation of jurisdiction by the Commission with respect to any and all issues concerning Indian Territory Illuminating Oil Company, a subsidiary company of Empire Gas and Fuel Company, its publicly held stock and its relationships with the other companies in the Cities Service Company system; and

It appearing that by order of the Commission under date of June 10, 1943 the issues relating to Indian Territory Illuminating Oil Company, its publicly held stock and its relationships with the other companies in the Cities Service Company system were finally disposed of by dismissal of such proceeding; and

The necessary number of consents to the plan having been obtained and the plan having been declared operative on September 28, 1942; and

It appearing that of the 127,621 shares of preferred stock of Empire Gas and Fuel Company which were outstanding in the hands of the public, 3,878 shares have not been exchanged of which 2,545 shares represent stock which has been offered in exchange but which has not actually been delivered; and

Cities Service Company and Empire Gas and Fuel Company having requested that the jurisdiction as reserved in the order of August 3, 1942, as recited above, now be released and that the proceedings instituted by our orders of July 3, 1941, and May 4, 1942, be dismissed; and

It appearing to the Commission that the plan as previously approved contains sufficient protective provisions for the benefit of those stockholders who have not accepted the exchange offer and that, in view of the large majority of the stock already exchanged, the public interest and the interest of investors do not require that the Commission exercise any further jurisdiction with respect to the proceedings instituted pursuant to sec-

tions 11 (b) (2), 12 (c), 12 (f) and 15 (f) pursuant to the notices and orders dated July 3, 1941, and May 4, 1942 or with respect to the shares of the publicly held stocks which have not been deposited under the plan;

It is ordered, That all jurisdiction reserved by our order of August 3, 1942, which has not previously been released, be and now is released, and, that the proceedings instituted by our orders of July 3, 1941, and May 4, 1942, be, and hereby are, dismissed.

By the Commission.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania on the 28th day of December A. D. 1943.

Notice is hereby given that a declaration or application (or both), has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by National Power & Light Company, a registered holding company, and a subsidiary of Electric Bond and Share Company, likewise a registered holding company;

Notice is further given that any interested person may, not later than January 3, 1944 at 5:30 p. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

National Power & Light Company ("National") retired on June 16, 1943, 138,000 of the 150,000 shares of its outstanding \$6 Preferred Stock held by the public at \$100 per share plus accumu-

lated and unpaid dividends. National now proposes to retire on January 31, 1944, subject to requisite approval of its stockholders, the remaining 12,000 shares of \$6 Preferred Stock outstanding with the public at \$100 a share, plus accumulated and unpaid dividends to that date, and, at the same time, to retire 1,048 shares of said \$6 Preferred Stock, heretofore reacquired by National and now held in its treasury. National requests approval of the solicitation material to be used, in connection with a special meeting of its stockholders, to solicit from them their proxies for the authorization of a reduction of capital stock and of capital and for the amendment of National's charter.

National also proposes to reduce its outstanding Common Stock to 5,456,100 shares by the purchase in the open market of 17 shares of Common Stock, subsequent to the retirement of its \$6 Preferred Stock. It is stated that such purchase and reduction in the number of outstanding shares of Common Stock is for the purpose of facilitating the distribution by National of its portfolio to its Common stockholders and that no fees or expenses will be incurred in connection therewith other than customary brokerage charges.

National describes the proposals set forth in its application or declaration as steps toward compliance with this Commission's order of August 23, 1941 under section 11 (b) (2) of the act requiring the dissolution of National.

SOUTHERN UNION GAS COMPANY, ET AL.

MEMORANDUM OPINION AND ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 28th day of December 1943.

Application by a natural gas utility company for sale of utility assets to a non-affiliated company, approved, the Commission finding that such transaction is necessary to effectuate the provisions of section 11 (b), is in conformity with previous order of the Commission approving plan filed under section 11 (e), and is fair and equitable to persons affected thereby.

Appearances: M. Morton Weinstein, of the Public Utilities Division of the Commission.

Southern Union Gas Company ("Southern Union") has filed an application regarding the sale of the physical property and assets, except cash, comprising its central Texas gas distribution system and plant, including a gas well and appurtenant lease, which it will initially acquire from its subsidiary, South-

ern Union Production Company. Such central Texas properties, serving natural gas to Hico and Duffau, Texas, are proposed to be sold to Lone Star Gas Company, a non-affiliated company, for the sum of \$36,500 in cash, subject to certain adjustments as provided in the purchase agreement dated November 12, 1943. Southern Union has requested that the order of the Commission entered in this proceeding contain the findings and recitals necessary to meet the requirements of section 1808 (f) of the Internal Revenue Code, as amended.

The application is submitted in the form of "Amendment No. 13" to the section 11 (e) plan which we approved by our order of September 19, 1942.¹ The said order, pursuant to section 11 (b), directed, *inter alia*, the disposition of the central Texas properties by Southern Union and reserved jurisdiction over the terms or conditions of such disposition.

After appropriate notice, a public hearing was held. Having considered the record, we make the following findings:

The gross book value of the property owned and proposed to be sold by Southern Union, as of December 31, 1942, was \$125,190; the estimated net book value of such property, as of the same date, was \$86,373. The record does not indicate the carrying value of the gas well and appurtenant lease included in the proposed sale, which Southern Union Gas Company proposes to acquire from its subsidiary for \$3,000 in cash.

The net operating profit before depreciation, interest, and income taxes allocable to the central Texas properties was \$1,898 for the year ended December 31, 1942, and the average for the five-year period 1938-1942 was \$2,029. The proposed sales price of \$33,500 (not including the \$3,000 applicable to the gas well and appurtenant lease) is equal to 16.51 times such average net operating profit for the years 1938-1942. The record indicates that Lone Star Gas Company operates in the immediate vicinity of the central Texas properties and is a supplier of a substantial portion of the gas distributed in such territory by Southern Union.

The amendment recites that the contract price was determined as a result of arm's-length negotiations. Under all the circumstances pertaining to the proposed sale, we find that the proposed sale is necessary to effectuate the provisions of section 11 (b), is in compliance with our order of September 19, 1942, and is fair and equitable to the persons affected thereby. We also grant the applicant's request that our order conform to the formal requirements of section 1808 (f) of the Internal Revenue Code, as amended.

It is therefore ordered, That the said application designated as "Amendment No. 13" be and is hereby granted forthwith, subject to the terms and conditions prescribed in Rule U-24.

¹ Southern Union Gas Company, et al., v. S. E. C. (1942), Holding Company Act Release No. 3802. In Southern Union Gas Company, et al., v. S. E. C. (1943), Holding Company Act Release No. 4650, we granted, pursuant to Section 11 (c), an additional 6-month period within which to comply with our order of September 19, 1942.

It is further ordered and recited, That the sale by Southern Union of its central Texas properties, including a gas well and its appurtenant lease to be initially acquired by Southern Union from Southern Union Production Company, to Lone Star Gas Company for \$36,500, subject to certain adjustments as of the date of closing, pursuant to the contract between the said parties dated November 12, 1943, is necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and is necessary to comply with the Commission's order of divestment under section 11 (b) of said act entered on September 19, 1942.

The central Texas properties referred to above being more completely specified, itemized, and described in the contract of sale dated November 12, 1943, marked Exhibit A of Amendment No. 13 and filed with the Securities and Exchange Commission on November 25, 1943 as a part of the record in this proceeding, which document is hereby incorporated by reference in this order and made a part hereof, with the same force and effect as if set forth at length herein.

By the Commission.
